A great tongue in cheek tool to "jokingly" tell a clueless spouse that it's seriously been too long! And who wouldn't want to come home to this stuck on the door? It's a fun way to play anytime and a great way to soften what could be a tense, WTF type convo if that's where you're at as well. Nice quality, heavy paper.

So I bought this as a joke for the girl I was dating, but I didn't think she would take it so seriously. Let's just say I never took them out again while she was around. But I still love the idea of these series of note pads.

Really quite funny. I have used the pad at least three times since I've received it and well it hasn't always worked with the wife but it at least got her to her a little more LOL.

I got this as a gift for my bf and and he loves it. It will definitely make a relationship more interesting!

I bought this for my friend for her bachelorette party, and am now thinking about buying another one

for myself. It's hilarious!! Who knew there were so many reasons to do the deed... ;)

LOL. This is so funny. I received this as a gift from a friend who knows me too damn well. Ok. So now I have something to use when I contemplate sleeping with that new dude.

Okay it's funny and my husband got a big kick out of it, but a lot of the options are things I'd never use and could be offensive or inappropriate to a vast number of people. If you think that might be you... zoom in and read all the answers before buying to avoid frustration. There are a lot of boxes I can use and will use and it can be quite cute and fun, I bring it out from time to time and leave one of the pages somewhere for my hubs to find. I'd recommend adding a fill in the blank line at the end but hey...that's me. To be honest, I wouldn't buy again, but I'll still enjoy using up the rest of the pad.

So funny. This would make a perfect wedding gift. We've used it a couple times and it just makes me laugh whenever I see a little note waiting for me. Very fun.
