California Construction Law And Public Contracting In California: A Primer In How NOT To Get Screwed

Synopsis

The Only Book on Construction Law You'll Ever ENJOY Reading In this witty and interesting look at construction law a veteran Los Angeles attorney whose practice focused almost exclusively on construction contract disputes - from bid dispute to mediation to trial to appeal - goes over some of the basics of California construction law. He focuses extra attention on some of the "gotchas" that can trip up even an experienced contractor. A great read for anyone who is new to California construction, for seasoned contractors, and for lawyers in the field. Written humorously and with an eye toward being enjoyable as well as informative, this low-key look at contracting will help anyone in the California construction industry avoid mistakes, instigate good business practices, and (hopefully) make some money.
