Construction Law

Synopsis

Written by leading construction law practitioners, the Forum on the Construction Industry's new textbook Construction Law meets the pressing need for a comprehensive law school textbook. It provides a complete orientation to the construction industry and its processes, and it can be used for introductory survey courses or more advanced courses oriented towards litigation or transactions.

Customer Reviews

I took Con Law as part of my graduate course work. The professor wasn't that much of a help. This book basically got me through the course. Well written, using mostly layman's English as opposed to convoluted "legal-ese"

Great book, we used a lot on the Construction Law class at Georgia Tech. We don't totally based on it, so it's very handy to have a professor to help understand the different topics.

Promptly came to my door. Brand new book.....no marks... The material itself is easy to retain.even for the busy college student. ..

Great book
