The Daily Show With Jon Stewart Presents Earth (The Book): A Visitor's Guide To The Human Race

Synopsis

The eagerly awaited new book from the Emmy-winning, Oscar-hosting, Daily Show-anchoring Jon Stewart--the man behind the megaseller *America (The Book)*. Where do we come from? Who created us? Why are we here? These questions have puzzled us since the dawn of time, but when it became apparent to Jon Stewart and the writers of *The Daily Show* that the world was about to end, they embarked on a massive mission to write a book that summed up the human race: What we looked like; what we accomplished; our achievements in society, government, religion, science and culture -- all in a tome of approximately 256 pages with lots of color photos, graphs and charts. After two weeks of hard work, they had their book. *Earth (The Book)* is the definitive guide to our species. With their trademark wit, irreverence, and intelligence, Stewart and his team will posthumously answer all of life's most hard-hitting questions, completely unburdened by objectivity, journalistic integrity, or even accuracy.

Book Information

Hardcover: 256 pages

Publisher: Grand Central Publishing; First Edition edition (September 21, 2010)

Customer Reviews

If you've read or heard about *America (The Book)*, know first that this book is fairly different.

America (The Book) makes itself out to be a mock textbook, and has many long, hilarious text passages that skewer politics and education at the same time. However, there are also the occasional pages that are infographics, with jokes both in the images and the captions, that take up complete pages. Now imagine that the entire book were made out of these commented infographics, with the subject matter shifted from the USA to the entire planet, and aimed at an audience of aliens who find the Earth deserted after the human race spectacularly manufactures its own demise, and

you have Earth (The Book). If you haven't read America (The Book) - and if not, what are you waiting for? You can grab the paperback for less than \$10 here on - just think of this as the anti-coffee table book. It's a tome that delightfully destroys all aspects of society, from our perceptions of aliens to the planet itself to commerce, religion and culture. It can be picked up occasionally and flipped to a random page, as each joke is encapsulated and confined. Or, it can be read large sections at a time, with every word and picture perused until you can laugh no more. There is at least one brilliant joke per page, and quite often more than that. This book pokes fun at anything and everything, and you may find the finger pointing at yourself now and again. If you can't laugh at your own idiosyncrasies and beliefs, skip this book and recommend it to someone with a sense of humor. If you can't take a joke, this book isn't for you.
