Customer Reviews

This was a Q&A a bit different than the others I've used. The questions are entertaining and there is good overall organization. But, what really seems to separate it from other Q&As, is that one could learn all of the major concepts of copyright just by reading the answers in this book. Though not perfect, this Q&A is the best I have used to date.

Incredible for exam prep. Definitely recommend. Questions were good, but explanations make the

book worth buying
