Insurance Law: Cases And Materials

Synopsis

This book is intended as a complement to the authors' Insurance Law: Doctrines and Principles, following its general pattern but integrating the jurisprudence from other common law jurisdictions, particularly the USA, as a means of demonstrating how problems which have long confronted the English courts frequently receive different legislative/judicial responses elsewhere. Although the emphasis of the book lies with the case law spanning some two centuries, the authors introduce each section with a brief narrative designed to focus the reader's attention as he or she works through the cases. A critical approach is adopted and emphasis is given to major journal articles and to the current UK and EU reform agenda. Readership: undergraduates, external students taking the London LL.M Insurance Law course, CII candidates and those who lack access to a law library.
