Customer Reviews

As an insurance professional for over 20 years I found that "Insurance Law in a nutshell" is a "MUST HAVE" for anyone in the industry. This is a well written and informative book that details the products that we bring to our clients. It also brings to light the legal aspects of the guarantees that all insurance products provide. I would recommend reading this book as part of your continuing education requirement instead of taking an online class that you disregard the moment you are done with it. Christopher French, the author, defines the guarantees of each product but then cites

case law in which he gives examples of the guarantees being challenged. Although I am not a lawyer I found it an easy read and very interesting!!!
