Advanced Craps (John Patrick's Learn To Win At Gambling Book 2)

Synopsis

Renowned professional gambler John Patrick's classic book for the advanced Craps player..JohnPatrick's Comment on Place Bets:"One of the best bets in the whole casino is the Place Bets in Craps, whereby you can have the powerful 6 and 8 working for you every game. I go very deep into this aspect of the game." Excerpt"That's why I want you to pre-determine your series, incorporating an intelligent Up and Pull Series.Notice that the prior example allowed you to increase your wagers, while salting away profits. Every single hit should allow you to pull back something, regardless of the amount. That's why it is imperative that you learn both of these systems so that you can incorporate both the Up and Pull and Regressionin the same series." "The above message zeroes in on your handling of a Place Betting series, where the regression puts you into a no-lose situation and the 'Up and Pull' betting keeps kicking off additional profits.READ THIS BOOK!"588 pp.

Customer Reviews

First thing, I couldn't read the text because it was so tiny.Using the text controls didn't help a bit.I tried to make it bigger with (CTL +) and the bottom of the page dropped off the screen.Then, after a couple pages I got a link to some commercial PDF reader that I'm supposed to BUY in order to read what I just BOUGHT?If this is what the trial version looks like, why in the world would I want BUY the "full" version?I feel seriously cheated.

My example would include A. Bet 5 on come & don't come B. If not 7, 11, 2 or 11, take odds on the DcC. Lay odds against 4, 5 9 & ten D. Pray for 7. Go back to A

format and writing style are zero stars but the content and craps knowledge is excellent. Bear with it - because John Patrick knows this game.

This is bulls***. All it is is scanned pages from a book and its impossible to read without a magnifying glass. DO NOT BUY

Great book. Best ever. Lost of strategies.
