Customer Reviews

I love going to casinos, but never play table games because I don't know how. I was always told to play craps, you will win more than if you play the slots, which is probably true. This is the perfect beginners book, as it is not super long. After reading this book I went out to the casino and tried craps for the very first time, and did well! I made money, not a lot, but to come out of the casino with some money is big in my book. I didn't play craps all night, but I did spend a good amount of time doing so. I would highly recommend this book as it will help with your chances of winning, but also boost your confidence as you approach the craps table.

MUST READ IF YOU ARE TRYING TO LEARN CRAPS! I have always seen people playing Craps and they always look like they are having a blast!! I was always too intimidated to go up and play. I was headed to AC this past weekend and decided I wanted to actually get in on the action. This book was AMAZING!!! It gave me all the knowledge I needed to be confident enough to go to the table, without making it hard to understand! Bonus: I actually won!

Great book for a beginner wanting to learn how to play craps. It does not go into excessive detail, but gives a great overall summary of craps to get you at the table and playing. I was going to Vegas for the first time with a friend that enjoyed the game and decided to read this ebook on the plane. I was able to acquire a working knowledge of craps by the time we got there and I was doing pretty well until the 6th round of drinks!
