Customer Reviews

These are great for practicing the rule of perpetuity (i.e. making sure you have that down cold). For other topics, they function great as an after class review to ensure you fully understood the course material. But, as finals near, you will be best served by starting to do some of your professors

practice finals.

These provided a good overall review of the major areas of real property as I start refreshing in prep for the bar exam. The user will not relearn all the elements of property, nor does it substitute for a good solid study of the subject. It does, however, serve as a great test and refresher, and the hypos are very useful and very similar to practice MBE questions.

came as expected, on time, and in new condition. It was definitely worth buying the set new to make sure I got the reference book for the different study sections.

Received on time, most of the cards were still unopened.
