Customer Reviews

Several typos. Very annoying and distracting. Also, some briefs are missing important points from the textbook. Otherwise, helpful case briefs. Easy to read. I suggest that you do not rely on this solely! Read the textbook then use this to help you understand the cases.

This book was excellent in helping me prepare for class. It breaks down each case and tells you the black letter law. The only negative is that it only contains the full cases in the book and does not contain any of the often important note cases. Overall, it's a solid study aid

It's a great case material. I stopped reading about halfway through the semester and this definitely

caught me up to speed.
