Customer Reviews

The book binding was broken; took a very long time to have this message delivered to one of the customer representatives. The entire phone conversation took 30+ min - I have not ordered the book again since I did not wish to get another poor quality textbooks from .

The binding isn't perfect, but this book got to me very quickly and the price was much better than buying the book outright.

I loved this book. It is very descriptive and helped me learn business law extremely well. I suggest you buy it.

A tough read but it is written well. If you are not interested in the subject it is dry but readable

The book is fine...but the real issue is how the book is put together. My binding fell apart after just

three months of use and it was missing nearly 50 pages of book material

Book is very broad and contains a LOT of information!!

Great book, exactly what the class required. Thorough and easy to read, understand, and absorb.

need this book for class. good book. dont really care much for it since i only really need it for class.
