Customer Reviews

Franklin's Torts is an AWFUL casebook, which is part of what makes this set of briefs so useful. It takes the run-on cases from the main text and breaks them down into salient points. While you'll still need to read the actual cases for details and the notes to understand why many of them are terrible examples of the actual legal standard in most jurisdictions, this book is good for quick recall in class and studying for exams.

excellent study aid. It is coded specifically to the book and gives you easy to see analysis

This was a good reminder on what each case was about, but the information is not deep enough for

most classes in torts. The definitions are very repetitive. Best part would be it follows with the textbook so it hits at least one key point for what you did in each class.

easy to read concise and to the point
