While the print size is great for seniors, it is awkward to have the puzzle on one page and the words on another. I thought the idea would be to have the book fold open (hence the spiral backing) and so be easy to manage without resting on a table. My Mom has advanced dementia and if she uses the book folded back, by the time she reads a word to search for and then goes to the next page to search, she has forgotten what she was looking for. We have to lay the book flat so she can see both pages at once. It would be much better to have the words and puzzle on 1 page.

I purchased several of these for my grandmother who has Dementia. She's had several small T.I.A.'s so her right side which has always been her dominant side is now weak. So getting these puzzles have helped force her to use her dominant side again. It's a slow process but being in large print is helpful.

Zero stars! It's Terrible! The description says there are more than 300 puzzles but there are only 85! Not sure how 85 is anywhere near 300. I am very disappointed since that was the main reason I

purchased this book. \$6 for 85 puzzles. What a shame.

The word search is pretty good, but my book must have been tucked away some place where it was a bit crowded. The minute I took off the plastic wrap on the book one corner curled up and seems to be permanently bent. I have to keep beating it into submission. Other than that a good word search.

these puzzles are so much fun!! i wish there were more cube searches. the spiral binding is great.

This book is spiral bound, very large print, with many different types of word searches. A teaser for your brain!

My grandmother is thrilled to be able to see her puzzles without a magnifying glass.

I enjoyed these puzzles. However, the book itself doesn't contain that many, and I breezed through it quickly.
