Customer Reviews

The book was shipped and at my mailbox very fast. This book walks you through step by step in the process of which will to choose and how to write one. I highly recommend people get this book and make out a will.

There is a big mistake in form #14. It uses the phrase "per stirpes". This means it will NOT fit its purpose as indicated by the "how to pick the right will" flowchart on page 99. Also keep in mind

when using this book that it is 10 years out of date. According to the publisher, there are no plans for an updated (5th) edition at this time.

This book describes joint tenancy, a way of holding property that simplifies transfer of ownership upon death and does not require probate. But it tells NOTHING about how to set up joint tenancy, or how to change currently owned property to such an arrangement. Not very helpful at all.
