The Good:What these laminates do better than nearly any other resource is to give you a general overview and guide so you can understand where the material is going. Similar to the artist's technique where you have to create a vague rough sketch to understand proportion and relevance, these allow you to understand the significance of minutia and detail in the bigger schematic. Also great refresher if you are return after a long time away and your own notes don't make sense anymore.
The Bad:These cannot replace the actual text or class material, though of the entire series Constitutional Law, Civil Procedure and Criminal Procedure come closest.
The Ugly:For those gunners out there, the laminate surface also makes these perfect to buy a second set to keep in the can for those "first thing in the morning" study sessions.

What BarCharts are NOT: a comprehensive study guide. You cannot do well on a law school exam or bar exam relying solely upon BarCharts. That is not their purpose.
What BarCharts ARE: a condensed overview of the black letter law. Use them as a quick reference to understand the material during the semester. Use them as a REVIEW of the material you (should) have already

studied for the exam. In law school, BarCharts were the last thing I skimmed over before taking an exam. It's a good refresher. Same with the bar exam. I skimmed over my BarCharts both nights before the exam.

Don't depend on these for your finals, but they are a great last minute tool the morning of a final for a quick refresher.

Purchased to help with the paralegal program I'm doing. A great go to for an overview. Very happy with them!

Comprehensive

Good summary!

I'm studying for the bar. This is a great way to refresh before tackling practice exams and essays?

Somewhat helpful. You're better off writing your own outline.
