## Customer Reviews

There are not many books on the market that have good single topic - multiple choice questions for something like MBE prep. This book could fill that gap but the questions are confusing. The author conflates issues. His questions are too long. His explanations are confusing. Sometimes his answers are just plain wrong, sometimes they are so poorly worded that the answers do not make sense. Occasionally, it seems like he updated the questions without updating the explanation from one edition to the next - the characters in the hypo will have different names or the facts in the answer will not match those of the question. If you suffered through law school you will be familiar with professors who just do not care if students understand or not. There are also professors who delight in keeping students confused all semester, rather than teach them the law (they claim this teaches students to think like a lawyer, as if such a low standard would be tolerated in any other profession.) Siegel no longer teaches nor does he update these books with his name on them. Instead he sends emails to new bar admittees in California offering to be their recruiter. I'd steer clear of anything associated with such sloppy work. He clearly does not care if students learn the law based on the book with his name on it. I doubt he will be of any value as a recruiter, either. The

essays also lack something that would be of great value to students. Would it be too much to have good answers, mediocre answers and poor answers to one or two essays? It is pretty painful to start writing essays and only be able to compare them to the professor's ideal answer. We could mark our progress if we had some C, B- or B+ answers to compare to.
