Customer Reviews

I LOVE it! It's fun go through and me and my little brother had fun answering the questions and doing the challenges in the book. It's even more fun if you get the app for this book! I love that futuristic feel it has when you hold your phone over a page in the book that is made for the app and a video will start to play! Very clever and so cool! Great Job Alfie!

Creative fun, silly book but sometimes silly is what we need to get thru the day,

Basically just a copy of "Wreck This Journal" except less fun.

I bought this as a gift for my sister, it's an interactive book, there is also an app to go along with it.

She seems to enjoy reading and doodling through it. Definitely a good gift for a creative person since you basically finish parts of the book with your own ideas that are prompted to you by Alfie Deyes.

Well done Alfie Deyes!

Honestly, I would give this book no stars if I could. It is nothing but a rip-off version of Wreck This Journal with Alfie Deyes' name across the front. Honestly, I regret ever wasting my money.

This book is a complete ripoff of Wreck This Journal. Alfie is complete trash for bribing fans to give 5 star reviews for this piece of garbage

I love it. My son is not interested. He says it pointless. lol He's only 9, soon to be 10. This may be more fun if he had his own phone. I also think girls may like it better. It's just not my son's style but I think it is a great book anyway.
