Gail Howard's book titled 'Lottery Master Guide' is the 'one and only' book that anyone needs to help win any State or any country's lottery! I have read a number of other authors' books on how to win the lottery, and all others I read were very confusing, and/or didn't give enough good info to help at all! I own several of Gail's books and also her software, and am proud to say I have won a lot of prizes using her number selection methods and wheels over the years. No, I haven't won the elusive jackpot yet,..but I feel it's only a matter of time for me! The 'Lottery Master Guide' explains all her methods and charts in detail to help you reduce the high lotto odds by millions! Once this is explained to you, you'll see how to win multiple prizes in any State or Country's lottery. In this book, there are many unique number selection methods mentioned that I haven't seen anywhere else that will help you trap the winning lottery numbers in your selection process. Yes, the lottery drawing itself is a random type drawing done usually with a 'machine', but, even so, you can clearly still see patterns that develop over and over again and use them to your advantage to win prizes. From using the charts and methods shown in plain to understand language, to look at the numbers in ways that most never even think of, you can finally be a constant winner like myself, and many, many others using her systems and methods. This book will show you how to spot trends and when to take advantage of them. Her other books are wheeling books (Lotto How to Wheel a Fortune, Lotto Wheel Five to Win and her Powerball/Mega Millions book) and they have hundreds of guaranteed wheeling systems that show minimum and maximum amounts you will be guaranteed to win.
