History On Our Side: Wales And The 1984-85 Miners' Strike

Synopsis

A history of Wales during the period of the 1984/85 Miners' Strike. It is at times an intensely personal account and at others a considered and retrospective view. The Miners' Strike was a momentous incident in the political and industrial history of the western world. But across Wales it had a far more significant and integral effect upon the whole of society, marking a change in social history that is still felt in the way twenty-first century society is ordered in the UK. The book is published on the twenty-fifth anniversary of the strike.
