## Customer Reviews

There is nothing great about this. It is more helpful than the casebook that it reflects. I would never buy the case book for this class. I borrowed it from the library for the first week of class and now, in the third week I decided that it is not really worth going to class. The case book is a waste of time. Get an old outline off the internet and a couple of supplements and teach yourself.

These are great supplements to help you understand the concepts. Also, the chapter summaries are brilliant jumping-off points to create an outline or whatever study method works for you.
