Customer Reviews

If you find a secret here you've been living in a cave. Reviews of game types are interesting, but you'll not find illustrations of the machines, or the odds, or the various underlying deal algorithms. The editing is poor (e.g., slots are in isles), and advice like "play the machines that give the best odds." Duh!

Okay, this book has this information ---Chairs: Each video poker machine in the casino has a chair in front of it so that you can play the machines in comfort, even if you were to play for hours, as many of the players do. --- No, I am NOT kidding. And that was one of the more helpful paragraphs! Okay, now I AM kidding. I would be embarrassed if I had written this book.
