Customer Reviews

I found this to be a pretty good guide. Easy to read, but not as detailed or in-depth as it could be. More of an overview or a go-to guide. I recommend it for paralegals who want an understanding of corporate law, or even a point of reference. I used it as a student, and I refer to it periodically even though I work in the field of Intellectual Property.

I would recommend this book to anyone taking a business class in the legal field. It did make learning about this topic easy.

I received the book within 4 days of ordering. It arrived in the condition as advertised.
