Handicapping Secrets Of The Horse Racing Fanatic

Synopsis

"The first weekend at the track after reading your book (Handicapping Secrets of the Horse Racing Fanatic) I won \$2,600.00! Thanks for all the great info." R. Kelley - Los Angeles, CA. "...Initially, I was looking for the plays on the pick six but actually evaluated them last. I would almost swear that I was privileged to look at an experienced horse player's soul. I believe this material needs more than reading, it should be studied and practiced. The author is certainly knowledgeable about the secrets of winning. For any serious horse player who is self taught or those who aspire to collect money from the race tracks, armed with just these techniques a loser could become a winner. I would heartily endorse this author. Thank you again," Jerry Smiley - NV "Great book with tremendous insight to thoroughbred handicapping and wagering." -janishrj - 6/29/09 "Gordon Easton's Pick-Six Formulas and other betting strategies are quite literally worth a fortune to any serious fan of horse racing. Add in the rest of the handicapping expertise he has picked up along the way, and you have a resource that no one who plays the ponies can afford to be without. Recommended without reservation!" - Jay M. - Arlington, VA "I failed to mention how informative the book you sent me is. Even with over 40-yrs. of experience, I learned things about racing that I more than likely did not know, or just plain forgot about. It's a good book!" Don Oerlemans - Westville, NJ "Very well written and super informative book. A+++++" -K.F. "Great handicapping book for any horseracing fan." -bettyjean4771 "Solid info and systems!" -ciolek75 "Very informative!! Easy to master. Thanks!!" - A.T. "Good and interesting info for any handicapper. Thanks." -C.T. "Good tips and angles I haven't thought of before. Pick 6 strategies are great." -J.K. "very interesting book, the stats alone are incredible. A+++" -J.J. "Good insight to handicapping horses." -G.D. What makes Handicapping Secrets of The Horse Racing Fanatic your absolute best bet to put more money in your pocket when wagering at the track? It's not just master handicapper Gordon Easton's four decades worth of powerful and proven betting systems | spot plays | and long-shot picking secrets, all brought together in one book for the first time anywhere. What sets this book apart from all the rest is that retired mathematics professor Gordon Easton is a mathematical genius specializing in Numbers Probability Theory, who gives his readers a complete set of "plug and play" betting formulas that will let you cover more horses and results for every dollar you bet, shaving the odds in your favor. For example: Most people never win a Pick Six because they don't have the hundreds of dollars needed to put a lot of horses on a single ticket. They will bet many \$2 tickets instead. They could end up with several tickets with 3 or 4 winners | but none with 5 or 6 for the big win. But, by using Gordon's formulas, you are guaranteed to line up at least five winners on one ticket if you get a winner in each race. You'll also have a decent chance at getting a Pick Six |

without spending a fortune. For example: Pick Six Formula #1 covers 4 horses in 1 race | 3 horses in 3 races | and 2 singles (your most likely winners). To put all of these horses on one ticket would cost you \$216. Using Gordon's formula | you can do this for only \$24, with the guarantee of 5 or 6 winners on one ticket if you have a winner in each race. There is no other place on the planet you can find this kind of incredibly valuable knowledge. Handicapping Secrets of The Horse Racing Fanatic has been getting rave reviews from fans across the globe that paid \$45 for their printed copy. So, don't let the low price of just \$9.99 fool you. That's less than the cost of a clubhouse lunch for a lifetime's worth of knowledge that no sports betting fan should be without. So grab your copy now... before the price goes back up.

Customer Reviews

No secret ingredient here. Andrew Beyer's books on horse racing knowledge and his insights make this compilation of secrets a waste of time. Basic handicapping requires skills like build-measure-learn as fundamental activities. They were totally omitted in this book.

This book will add more weapons to your handicapping arsenal. Nothing astounding here, but good,

solid ideas. Some nice, although not new money management ideas for betting the exotics. I'd recommend you buy the book. And I've read some of the top expert's books. Good luck.

This is a good book but not for the casual fan. A good basic understanding of horse race handicapping is needed to really understand the book. With that said it does provide some very good information and approaches to the art of handicapping. The one criticism would be that at some point it seems like you could make a case for almost every horse in a race, much like when you are at the track and everyone knows why the winner won after the race is over. I did enjoy it and have read through it a couple of times to update my approach.

This book is really easy to read and follow ! After reading it, you will have a ton of understanding about the variables in handicapping ! It's a must have for beginners and medium level players, that really want to push their game into a whole new level !Awesome !RS

This is one of the best books I read on punting. Handicapping is only half the game, how to construct bets is the other half which is explained to a great extent, this book along with trifecta by Bobby Zen can make anyone good punter who can put effort required and has decent understanding of horse racing.

This book can be used by beginners or knowledgeable handicappers alike. There are chapters that people often overlook and new perspective on old theory's. You can't go wrong by reading this book.

I am about 1/2 way through it but find in an interesting review and straight forward explanations. I actually already picked up what I hope to be a "new trick" in my handicapping.

informative and very enlightening ----great to have as my horseracing betting bible made me understand what I was doing wrong and made me humble in my betting
