# Sources Of Indian Tradition, Vol. 1: From The Beginning To 1800 (Introduction To Oriental Civilizations) (Volume 1)

## Synopsis

Since 1958 *Sources of Indian Tradition* has been one of the most important and widely used texts on civilization in South Asia (now the nation-states of India, Pakistan, Bangladesh, Sri Lanka, and Nepal). It has helped generations of students and lay readers understand how leading thinkers there have looked at life, the traditions of their ancestors, and the world they live in. This second edition has been extensively revised, with much new material added. Introductory essays explain the particular settings in which these thinkers have expressed their ideas about religious, social, political, and economic questions. Brief summaries precede each passage from their writings or sayings. The traditions represented include Brahmanism, Jainism, Buddhism, Hinduism, Islam, and Sikhism. The book includes a chronology of Indian history from 3000 B.C. to A.D. 1858. (Robert P. Goldman, University of California, Berkeley)

## Book Information

Paperback: 547 pages

Publisher: Columbia University Press; 2nd edition (April 15, 1988)

Language: English

ISBN-10: 0231066511

ISBN-13: 978-0231066518

Product Dimensions: 6 x 1.4 x 9 inches

Shipping Weight: 1.7 pounds (View shipping rates and policies)

Average Customer Review: 4.8 out of 5 stars [See all reviews](#) (6 customer reviews)

Best Sellers Rank: #119,619 in Books (See Top 100 in Books) #13 in [Books > History > Asia > Pakistan](#) #85 in [Books > History > Asia > India](#) #92 in [Books > Reference > Writing, Research & Publishing Guides > Research](#)

## Customer Reviews

India has one of the richest and most intricate cultures in the world. Imagine a book that compiled all the ancient sources of this culture into a single volume. This book is as close to that ideal as possible. This volume covers India from pre-historic times until the mid 18th century. It includes selections from the Vedas and the Upanishads, foundational Hindu texts; selections from important Jain texts; and selections from early Theravadan and Mahayan Buddhist texts. It then embarks on an elaborate discussion of Hinduism, organized on the four goals of life -- *\*dharma\**, *\*artha\**, *\*kama\**, and *\*moksha\** (the section on *\*moksha\** contains selections from the *\*Bhagavad Gita\**, other scriptures, and the writings of mystics & saints). The last section of the anthology is a detailed

treatment of the Muslims period in India, from the 13th to the 18th centuries. Overall, this is an invaluable sourcebook for anyone who wants to know more about the history of India.

This book is an essential part of one's study of India and her history (to the end of the Mughal dynasty). In fact, it might very well be the most often used "textbook" in college courses on the subject. Countless students of Indic civilization, including myself, have cut their teeth on it and there is good reason. Professor Embree, the father of South Asian Studies in the USA, and an array of other notable scholars have written introductions to, and translated excerpts from, some of the most important texts in Indic religious, political and social history. That said, however, the emphasis is on religious developments - with major chapters on Vedic, Upanishadic, Buddhist, Jain, Sikh, Hindu devotional and Islamic traditions (among other topics). In sum, this is a wonderful resource for anyone interested in India. A must have - period!

I found it quite useful. What I liked most in the book was its objective approach to Indian traditions rather than stuffing on our throats the prejudices of the Western thought over Indian civilizational values.
