Broadcast Announcing Worktext: Performing For Radio, Television, And Cable

Synopsis

Broadcast Announcing Worktext, Second Edition provides the aspiring broadcast performer with the skills, techniques, and procedures necessary to enter this highly competitive field. In addition to the principles of good performance, this text addresses the importance of "audience" and how messages change to communicate effectively to various groups. Television and radio studio environments, announcer specializations and responsibilities, and developing a broadcast delivery style are just a few of the many topics covered. Factual information is presented in brief, easy-to-digest modules and is enhanced with self-study questions and projects that encourage active reader participation. The self-study provides an immediate check on the comprehension of what was presented, and the projects allow for a practical application of key concepts in the material. The worktext format, with many real-life examples, combines both traditional textbook learning and practical experience. A companion CD-ROM illustrates techniques and concepts in each chapter with audio and visual examples.
