"Blackadder": The Whole Damn Dynasty

Synopsis

A collection of complete scripts from all four of the "Blackadder" television series. From Medieval times through the Elizabethan and Regency periods to World War I, Edmund Blackadder and his downtrodden sidekick Baldrick veer from one calamity to another.

Customer Reviews

Well maybe not, but it is over 450 pages of Blackadder! "This book, sir, contains every word in our beloved language." Just kidding, I just had to say that. What this book does contain is the complete scripts for all 24 episodes of the entire Blackadder series written by Richard Curtis & Ben Elton, who are both "as clever as a stick in a bucket of pig swill." and starring the "quite brilliant" comedic talents of Rowan Atkinson, Tony Robinson, Hugh Laurie, and Stephen Fry, among others. If you have not seen Blackadder, you have no idea what you're missing. However, if you have seen it and don't like it, then I hope you get an extremely itchy rash on "the soft dangly collection of objects in your trousers." There are plenty of other things besides the scripts but I'll leave it as a surprise (or you can just read one of the other reviews). Keep in mind that these are the original scripts, not word for word what you hear on the show. For the most part it is exactly the same, but every once and a while there are different words used in the book. Don't worry, it doesn't take away from any humor and the only person that will notice it will be someone, like myself, who has watched Blackadder over and over. Seriously, I put Blackadder III in my DVD player before I go to sleep and sometimes the last thing I hear is "Once upon a time there was a lovely sausage called Baldrick and it lived happily ever after." Anyway the book is essential for the Blackadder fan who can't get

enough of the hilarious and original writing. Here are some lines you can read continuously for the rest of your life once you buy this book:"Population: three rather mangy cows, a dachshund named Colin, and a small hen, in its late forties.

This book contains the complete set of scripts for the Black Adder TV episodes, made by the BBC. Black Adder aired as four individual series of six episodes each: The Black Adder, Black Adder II, Black Adder the Third and Black Adder Goes Forth. It does not contain the Xmas special. The screenplays were written by Richard Curtis (Mr. Bean, Not the nine o'clock news) and Ben Elton - possibly one of the funniest modern writers. In the first series, Black Adder is a weak chinned, effeminate heir to Richard, Duke of York. Set in medieval England, we are introduced to two of the most often recurring characters in Black Adders live(s) - Percy and Baldrick. Lord Percy is an eager to please, high strung dolt. Baldrick, an filthy peasant that is under qualified to be the village idiot, acts as Black Adder's golfer. Although funny, the first series may miss an American audience with some of it's historical references. In the second series, Black Adder's next descendant is no longer heir to the throne but remains one of Queen's dearest friends. Set in Elizabethan England, we get to follow Black Adder as he plots to carouse, fornicate and steal his way to pleasure. Even funnier than the first series, Black Adder gets far more clever. We are also introduced to two additional, recurring characters - Melchett and Flash. Melchett is a pompous, over bearing palace sycophant and Flash is fast moving ladies man with more than just a sword hanging between his legs. Black Adder's fortunes have considerably fallen by the Third Series, where he is now serving a butler to the Price Regent of England, the stupidest man in the land. Again, the clever Black Adder schemes to raise himself at the expense of everyone around him.
