Customer Reviews

I purchased the Kindle version of this for a political science class I was taking. The book is packed full of information and is easy to read, but you may want to take an intro class into the legal system. This was the most challenging class for me so far. There were some minor glitches with the Kindle book, and it could have been a bit easier to navigate. It's probably worth 4.5 stars, but that is not an option.

Very well written. Usually a topic like this is very hard to follow due to the subject matter, this is very easy to understand and put together nicely.

It is for a college class. Great prices for renting books

needed it in a hurry for a college class.
