Customer Reviews

Use it on my job in a legal office for a reference manual. Great concise information that is factual and provides a tremendous overview.

the usual Nolo helpful, complete guide, includes caveats and the 'big picture'. Informative even if you do not have an immediate or personal need.

I already owned the companion book on Chapter 7 Bankruptcy, so I knew what to expect from this book. Very straightforward and the explanations are great.

Book purchased for use in our office public library -- basic and Nolo books are easy for a lay person to read

I read parts of this at Barnes and Noble. It's really well organized and easy to read.If I get the kindle version, is there a download link for all the forms?
