## Customer Reviews

I found my environmental law course to be pretty confusing--the casebook and the lectures were...  
... not exactly a picture of clarity. I've used a few other E&E books, and I found them all useful.  
This one, though, was invaluable to me.

Pretty thick and hard to get through. This E&E kind of requires you to know a lot to even get started,  
but that's fine I guess. It covers way more than my course did, so I'm sure that pretty much  
whatever your professor requires will be covered by this book.

It's useful for environmental engineers who deal with laws and suits.

Interesting. A text book for sure though...
