# The Condor Years: How Pinochet And His Allies Brought Terrorism To Three Continents

## Synopsis

Throughout the 1970s, six Latin American governments led by Chile formed a military alliance called Operation Condor to carry out kidnappings, torture, and political assassinations across three continents. It was an early war on terror • initially encouraged by the CIA which later backfired on the United States. Hailed by Foreign Affairs as "remarkable" and "a major contribution to the historical record," • The Condor Years uncovers the unsettling facts about the secret U.S. relationship with the dictators who created this terrorist organization. Written by award-winning journalist John Dinges and newly updated to include recent developments in the prosecution of Pinochet, the book is a chilling but dispassionately told history of one of Latin America's darkest eras. Dinges, himself interrogated in a Chilean torture camp, interviewed participants on both sides and examined thousands of previously secret documents to take the reader inside this underground world of military operatives and diplomats, right-wing spies and left-wing revolutionaries.

## Book Information

Hardcover: 288 pages

Publisher: The New Press; First Printing edition (February 1, 2004)

Language: English

ISBN-10: 1565847644

ISBN-13: 978-1565847644

Product Dimensions: 1.2 x 6.5 x 8 inches

Shipping Weight: 1.2 pounds

Average Customer Review: 4.5 out of 5 stars • See all reviews • (28 customer reviews)

## Customer Reviews

The first thing we have to make clear in these types of books is who the author is and the author of this book is John Dinges. Dinges is a serious journalist who worked as the editorial director for National Public Radio for over ten years (1985 to 1996). He has worked as a foreign correspondent for Time, ABC, and most notably the Washington Post. And he is currently a Professor at the Columbia University Graduate School of Journalism. This book is well-researched, documented, and in it Dinges is himself extremely careful about what he states as fact and is not afraid to

acknowledge when there simply is not enough documentation to make clear judgments. He frequently cites cables sent between the White House and the U.S. embassy in Santiago and as well as information from his own interviews with major players within Condor and embassy/government officials during the period. He makes clear how important Operation Condor was in the context of South American politics such as the fact that traditional enemies like Argentina and Chile were co-operating fully for the first time in contemporary history. And, initially at least, the real fear amongst the military dictatorships of guerilla movements united under the "Revolutionary Co-ordinating Junta". Dinges shows how DINA (the Chilean secret police) was created with U.S. support and turned from a small intelligence department to the hand of Pinochet under the leadership of Manuel Contreras. More interesting is how the book documents how operations were run in Europe headed by American-born DINA operative Michael Townley along with Italian fascists to eliminate the exiled Christian Democratic/Socialist Party opposition. All of this, of course, climaxes with the Letelier assassination in D.C.
