Customer Reviews

This is the complete Moonlight Sonata by Beethoven. All three movements are in one book and it is not a watered down version. This copy of Moonlight Sonata is excellent.

This is sheet music. What can you say? It is complete and the printing large enough to read easily and make your own notations. Includes a one-page bio of Beethoven plus background on the piece. If you are considering this one, you might want to get the Arthur Schnabel version. It is essentially the same (same publisher) but with Schnabel's notations, which you can always ignore if you don't like.

i loved this piece, so i don't really mind the binding/book its in. the book came kind of creased on the

cover, and the book itself looks kind of cheap, but like i said; the piece is beautiful so i will disregard the book it came in.

Over the years and a few home relocations, I have misplaced my copy of the Moonlight Sonata that I used. Now that I have a bit more time, I want to practice it again, and be able to play it. This is a fine copy of the music.

This is the PERFECT choice for the pianist that wishes to have complete and relevant notations. It is one thing to play this piece, and quite another to play it as intended. The notations included with this edition make it much easier to play it as I am sure Beethoven would have wanted! Five Stars

I would rate this product four stars. The paper could be better quality perhaps, or the cover look or feel more expensive, but honestly it's close to perfect as is.

Will really love it when I can play it. . . .ALL. It is very long. The book is good quality and will hold up I'm sure as long as I need it to.

Good print on quality paper but page turns don't always make sense. I have another print of this music with much better page turns.
