THE US-EU SAFE HARBOR SELF-CERTIFICATION CORPORATION GUIDEBOOK

Synopsis

This Safe Harbor Self-Certification manual greatly simplifies the process of obtaining self-certification and in itself is documentary evidence that helps to establish your compliance in the event of an audit. Containing an easy step to step guide by one of the nation's leading technology attorneys, it translates a morass of difficult to understand gov-speak into plain english. The European Commission's Directive on Data Protection went into effect in October of 1998, and would prohibit the transfer of personal data to non-European Union nations that do not meet the European adequacy standard for privacy protection. While the United States and the European Union share the goal of enhancing privacy protection for their citizens, the United States takes a different approach to privacy from that taken by the European Union. In order to bridge these different privacy approaches and provide a streamlined means for U.S. organizations to comply with the Directive, the U.S. Department of Commerce in consultation with the European Commission developed a "Safe Harbor" framework and this website to provide the information an organization should need to evaluate and then join the Safe Harbor. Using this manual, you can safely follow the instructions and prevent your company from having the data flow from the UK unexpectedly cut off.
