Hazardous Materials For First Responders

Synopsis

The 4th edition of Hazardous Materials for First Responders is written for emergency first responders who are mandated by law and/or called upon by necessity to prepare for and respond to hazardous materials and weapons of mass destruction (WMD) incidents. It serves as a primary text for personnel seeking to meet the requirements of NFPA® 472, Standard for Professional Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents (2008 edition) for Awareness-Level, Operations-Level, and Mission-Specific competencies. The purpose of this book is to provide first responders with the information they need to take appropriate initial actions at WMD incidents and hazardous materials spills or releases. Its scope is limited to giving detailed information about initial operations. Learning objectives are provided at the beginning of each chapter to assist the reader in focusing on the appropriate topic and knowledge and review questions are located at the end of each chapter. Skill sheets are provided at the end of many chapters to provide step-by-step instructions on how to perform crucial skills and activities. The book is divided into three parts designed to meet the competencies of NFPA® 472. The first three chapters address Awareness-Level competencies. The next four chapters address Operations core competencies. The last seven chapters address Mission-Specific competencies. 764 Pages
2011

Book Information

Paperback: 744 pages

Publisher: Oklahoma State University Fire Protection Pub; 4th edition (January 1, 2010)

Customer Reviews

I took this class online which had an e-book available, but not all the information was there. Having

the actual book was great help!

The book is fine for what you need it for. Get the study guide to go along with it and you won't regret it!! You won't have to read the whole book that way and you can hit the highlights!

This book was on Study material list for promotional exam. Had to buy it. A lot of information, but also contradicted itself several times.

I ordered this for a class at school. It was in good shape, has the information that was needed, and was a good purchase.

Exactly what my son needed for class delivered in a very timely manner

Perfect condition. Great price. Exactly as described, thank you!

Shipped in timely manner and exactly the way it was advertised
