Brief Romanian Military History (Brief History (Scarecrow Press))

Synopsis

One of the first historical mentions of an armed conflict in what is now Romania dates back to 335 B.C., when, prior to launching his legendary Asian campaign, Alexander the Great organized an expedition over the Western shore of the Danube to deter the Gaets and secure the frontier of the Macedonian Kingdom. Since then, the land located on the Black Sea and nestled amongst the Carpathian Mountains has seen more than its fair share of military struggles. Whether referring to the country's fight for independence against the Ottoman Empire in the 14th Century or the December Revolution in the late 20th Century, Romania's military history has been long and varied. This book presents a chronological and detailed narrative of the significant events in the nation's military history, covering everything from the campaign of the Persian king Darius I against the Scythians in 514 B.C. to Romania's admission into NATO in April of 2004. Beginning with a full chronology of the country's most important and decisive military events, Brief Romanian Military History then presents a general overview of 2500 years of Romanian history. Complete with biographies of significant military leaders and entries on important battles, wars, military organizations, structures, fortresses, uniforms, and weapons for each of the historical eras chronicled, this book is an essential reference tool for scholars, historians, anthropologists, journalists, and all others interested in the history of Romania.

Best Sellers Rank: #2,710,941 in Books (See Top 100 in Books) #137 in [Books > History > Europe > Romania](#) #76110 in [Books > History > Military](#)

Customer Reviews

Romanian armed forces colonel Calin Hentea presents Brief Romanian Military History, a concise chronology and summary of conflicts in Romania from the 6th Century BC to the modern day.

Thirty-five pages are devoted to the chronology alone; then, each chapter is divided into numerous short sections that describe a specific event, discovery, advance in military technology, or other turning point in Romanian Military History. Notes and a handful of black-and-white photographs and illustrations embellish this serious-minded, fact-heavy reference, ideal for world military history and reference shelves.
