Chinese Cubans: A Transnational History (Envisioning Cuba)

Synopsis

In the mid-nineteenth century, Cuba's infamous "coolie" trade brought well over 100,000 Chinese indentured laborers to its shores. Though subjected to abominable conditions, they were followed during subsequent decades by smaller numbers of merchants, craftsmen, and free migrants searching for better lives far from home. In a comprehensive, vibrant history that draws deeply on Chinese- and Spanish-language sources in both China and Cuba, Kathleen Lopez explores the transition of the Chinese from indentured to free migrants, the formation of transnational communities, and the eventual incorporation of the Chinese into the Cuban citizenry during the first half of the twentieth century. *Chinese Cubans* shows how Chinese migration, intermarriage, and assimilation are central to Cuban history and national identity during a key period of transition from slave to wage labor and from colony to nation. On a broader level, Lopez draws out implications for issues of race, national identity, and transnational migration, especially along the Pacific rim.

Customer Reviews

Incredibly researched, well written, and very readable. It is an eye opener to the history of the Chinese people and what they endured once they left their Chinese homeland for false opportunities of earning a living in Spain's Cuba. The cruel labor, servitude, and indignities they faced and survived to keep their heritage is well documented.
