Customer Reviews

if you are prep'n for LSAT and tight on cash...save your pennies to put toward the most recent lsat preptest's! I was able to purchase most tests from 28-58 and there is a big difference between older and more current tests, well at least in my opinion! I say if you are testing in 2010 you should really try to purchase 48 forward or at a min. purchase 55 forward. The more pretests you work through the more familiar you get with LSAC's wording, format, and "tricks." NO there are no repeat questions but boy are there sure close copies!! They love to repeat certain subjects and certain argument structures...so well worth your time and money to review this stuff!

I did very well on the LSAT and I credit my performance to the many sample tests that I took. If you take enough of these tests, you will get your timing down which is extremely important. I'd also recommend the KAPLAN books that give explanations to the answers. The only reason I wouldn't give these books the full 5 stars is because it would've helped if they gave explanations.

Product was worth the purchase. It allows the tester to complete 4 sections of the test(experiment section) is only available with the actual test. The answers to each of the test sections are available

too within the booklet.
