Customer Reviews

As a first year law student, I bought this book thinking it would help me and supplement the class. However, I found this book not very useful. In fact, I found it frustrating. I would find it brief in the places I needed the most help and long and drawn out over issues that were simple. While the book does a nice job of covering basic concepts like mens rea " style="display: inline"> Yes No

Unfortunately this edition concentrated quite a bit on the common law aspects of criminal law, and not much on the MPC, both of which are usually tested. The writing wasn't bad, and it was sectioned off quite well. Just be aware that if you are in a MPC heavy jurisdiction or class, that you may want to look elsewhere. (I like the Crunchtime books.)

The Nutshell series are good review books for learning the black letter law as well as having decent

commentary on key cases and areas to focus your study. A critical element of the law student's library and well worth the read and the cost.

The Nutshell series are some of the best I've used in law school, and trust me I've tried pretty much every type out there. Definitely a must buy!
