In *Shaking the Money Tree*, Morrie Warshawski has provided an excellent resource for anyone looking to finance their first film (or second or third for that matter). He has put together a book that is not only a good read but is chock full of information that is actually useful. The lists of resources available to the filmmaker is an good place to start when searching for those elusive dollars needed to either start a project or get one completed (or released from the post facility where it sits awaiting payment of past due bills). His thoughts and suggestions on grant writing are right on the mark. For that reason, I would highly recommend this book not only to those in the film industry, but to anyone preparing to apply for a grant not matter what the field. All in all, a well thought out, well researched, informative work.

this is the first edition. I also have a copy of the second edition. I have read them both. As it is win all things current information is current and good when it is written. Many people will comment and make suggestions that makes the second edition even better.it is useful to get you into a certain mind set in raising money for projects.

Generic gibberish. There's no magic way to getting your movie out there. Either you know somebody on the inside or you don't. If the yutz knew anything about raising money for a movie he be doing it instead of writing about it. You don't need to pay money to be told to ask your friends and family to invest in your movie.
