Customer Reviews

This book contains a wide variety of forms. But they are very bare bones and poor quality. Either that or they are free government forms. You can find pretty much better forms through a google search on the internet for free.

This is a very useful book, the forms are clear and concise and can be customized for personal use.

Great book. I referred to it quite often until someone swiped it. I'll buy another one when I get a "round to it". (I do have one somewhere)
